Nitrile Gloves

Available in 16"

BioPulse Nitrile gloves are manufactured using synthetic latex which contains no latex proteins, and shows better puncture resistance compared to natural rubber. Our Cleanroom Powder Free Nitrile Gloves are anti-static, odour free and show good solvent resistance

LiteTouch/UltraTouch/ PROFeel Nitrile Gloves

Nitrile Gloves offer the best protection against cytotoxic chemicals, microbes, and viruses. Manufactured using a unique formulation, these gloves are subjected to a battery of exhaustive tests and qualified for oncology production and research.

Safety Goggles

Ergonomic frame designed for comfort and durability

Features
Replaceable Lenses

Experience unparalleled comfort with our super-soft thermoplastic frame, designed for controlled environments. Enhanced with upper and lower ventilation, it prevents eyelashes and brows from entering your workspace. Featuring a tough, scratch-resistant, anti-fog polycarbonate lens and an adjustable, non-linting silicone strap for easy wear.

Engineered for Safety & comfort.

Wide view
Enables Greater field of vision

Increased Depth
Allows wearing over eye-glasses

Optical Clarity
Prevents eye strain for lasting comfort.

Anti Fogging
Ensures clear visibility for critical work

Feather Weight
Extremely light weighs just 140 g

Enduring comfort
Wearer is at ease for extended periods

Conflict-free fit
Eases operations including donning and removal

Replaceable lenses
Ensures economical use of the goggles

Components

- **Ultra-soft thermoplastic frame** ensures exceptional comfort.
- **Upper and lower indirect ventilation** prevents eyelashes and brows from affecting the controlled environment.
- **Toughened polycarbonate lens** offers scratch resistance and anti-fogging for versatile use.
- **Non-linting, latex-free silicone strap** provides easy, adjustable fit for seamless donning.

Ideal for Users in Pharma & Biopharma , Laboratories, and Cleanroom Environments
